Rev. Dr. Robin Blair
Founder/
Executive Director
Common Good Radio

Pastor Robin has spent the last twenty years inviting children and their families to explore arts as an expression of beauty and faith. In 2008, she founded Common Good Radio to fill a void in a digital life that seemed empty of faith formation for children. Common Good Radio is now heard across the US and in over 60 countries around the world. She has led workshops here and abroad and currently is pastor at Marcellus UMC.

Empower

your children & youth
to speak their faith

February 27, 2016
9:30—12:00

Penn Yan United Methodist Church

for the trainers:

Common Good Radio is celebrating its 2016 award-winning programming by offering a unique one-day experience for Christian education leaders, youth program leaders and pastors. Learn how your local church can join the Common Good Radio family as part of a rotation model or as a stand-alone ministry. Using little more than a smart phone, the children you love can write, speak, reflect, record, and edit spiritual messages for your website and send them to be programmed into the music and talk heard in over sixty countries. Learn how to create digital audio media that speaks to your local faith experience and learn how to affirm children in their faith narrative using that media. This exclusive opportunity invites you to deepen your understanding of the impact of current commercial media, which often attempts to exploit our most innocent charges and then provides practical ways to encourage your young people to create programs that allow them to speak out and listen to others as they explore their faith.

Help your group construct a faith narrative, grounded in scripture and expressed in their own words, that echoes their world view and finds validation through Common Good Radio's global reach and global input.

for the children & youth:

During the morning session, as CE leaders and pastors work with Pastor Robin, your younger children will look at scripture and prayer and song to produce an "Ask the Pastor" program. Under the guidance of our Common Good Radio staff, they will record shout outs celebrating their faith. Your youth will meet in a collaborative setting to investigate fruits of the spirit and will seek God in their pop culture. Through scripture, story, and music, they will create a digital radio show that speaks authentically about their faith journey. This programming is created with leadership development and faith development at the forefront, and is specifically geared to give voice to youth on the journey of faithful, spiritual living as young people notice the world around them and their part in it.
